

EdCredible's Value to School Board Members and Superintendents

- **Defensible Decisions:** EdCredible guarantees board members and senior administrators are in a strong position to make informed decisions, as well as defend those decisions to parents and the public. EdCredible securely captures vast amounts of evaluation, ranking, voting and communication data that is readily available in easy to read charts, graphs, and reports.

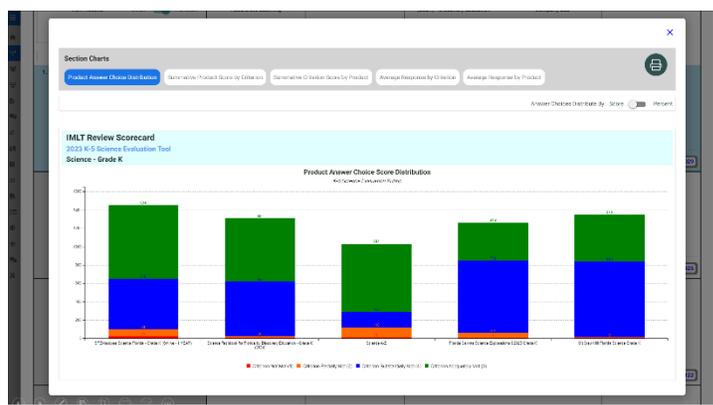

EdCredible makes it easy to understand and defend the district adoption and committee review process. EdCredible's unique, niche software empowers users to confidently support and defend their process with quantifiable data.

Districts provide parents and community members access to view samples through EdCredible to meet state statutes and demonstrate the district's commitment to transparency.

- **Build Trust with Parents and Community Members:** Parents and the community at-large can participate in the adoption process with easy-to-use screens to view samples or participate on evaluation committees. This increases the likelihood key stakeholders feel included and satisfied with the programs purchased for students. This can significantly diminish the likelihood of a public protest.

- **Data-Driven & Strong Fidelity:** EdCredible guarantees a transparent, inclusive, secure, and unbiased data-driven adoption process. EdCredible makes it easy to confidently stand behind decisions because of the rigorous and fair process inherent to EdCredible. The fidelity of the process ensures that the district purchases the best materials for ALL students.

EdCredible makes it easy to access evaluation, ranking and voting results so that administrators can ask targeted questions about results and make informed decisions.
